

GIOIA

gioia gaming systems

NOTE FROM THE CEO

My trip to Paris to attend the European Poker Awards in January, was a great experience. I was introduced to Marcel Luske and we had the opportunity to spend several hours together discussing our system for online poker.. Marcel is a consummate professional and his evaluation of our online poker system was very exciting and valuable. He was very complimentary and believes this system is good for poker players and good for poker. Marcel co-founded the IPF to establish International rules for poker. The IPF will reemerge as FIDPA which Marcel founded in 2002. He also received the Lifetime Achievement Award at this year's ceremony. While there, I was also introduced to Devil Fish and Peter Eastgate. Nic Szeremeta of Poker Europa attended and I found him to be a terrific person as well, It was a great experience.

CEO Gene Gioia with Marcel Luske

Gioia Systems opens registration for www.realdealpoker.com!

We are pleased to announce the opening of our site for pre-registration to future players. This event has created quite a stir in the online poker community and the anticipation continues to grow. Many, who believe in our mission to provide an honest game are anxious to see the site up and running. We are working diligently to make this happen. The buzz about our ability to offer players an opportunity to play online with a real deck of cards, eliminate random number generators, and offer a site that is fully auditable and verifiable has been the topic of many blogs, poker forums and gaming news articles. There are individuals who do not understand the concept or question our motives. We will continue to try and inform and educate those people to prove "what a difference a single deck of cards will make" in the game. This site was created by poker players, for poker players and truly will revolutionize online gaming. For those who have signed up, thanks for your support. We need everyone's help to get the word out. By signing up, you are voting for change, and the idea to play poker the way it was meant to be, honest, fair, and fun!

ULTIMATE BET SCANDAL GETS BIGGER

[Compensation Resumes in UltimateBet Scandal as Legal Agreement Reached](#)

On the heels of our launch, comes news that the Ultimate Bet scandal is bigger than originally thought. The more you think about this scandal the more questions are raised. Our approach at Gioia Systems would never allow this type of security fraud to occur. Our software and

technology is designed with the specific intention of assuring our players they are being dealt a legitimate game of poker where the outcome is determined by a single deck of cards, not a computer program. Our processes are based upon years of real world experience and the

sole principle of honesty. Player's should never have to question whether or not a game is fair, rather they should be given the tools and ability to verify themselves that the outcome of any game in question is accurate.
