

NOTE FROM THE CEO

Hello my fellow poker players.

To all of you who have supported our efforts, I am pleased to announce we are now moving forward with the integration of our Cut N' Shuffle® and Game Check™ into our new Poker Software Platform. We are eager to complete this integration.

If everything goes as anticipated we will announce an expected launch date in next month's newsletter. It has been a difficult and, at times, a frustrating experience in the current economic climate to move forward, but we have remained steadfast in our determination to bring a New Era to online poker.

We have many exciting things planned to coincide with this opening but one thing we are absolutely sure you will see; A completely new way of how online poker is dealt because our games are based on a real decks of cards and there is a difference. We are excited about the future and the games we will provide.

Gene Gioia, CEO

Industry News

Poker has had extensive press coverage since our last newsletter with activity both from legislation and consumer movements hitting the headlines! Not least has been the progress made in the US with regards legalizing the sport of Poker and significant announcements made by the current market leaders of global poker.

World Wide News

888.com rebrands its white label solution DragonFish, which has a pipeline of 50 partner deals to target.

A NEW ERA BEGINS...

Real Deal Poker moves closer to launch date. It's been years in the making but finally we are nearly here, the grand opening of Real Deal Poker, the worlds first poker room to use Gioia Systems revolutionary Cut'N'Shuffle® Real Card dealing technology accompanied with our GameCheck™, post game certification system. The anticipation and excitement from poker players is building with the news that Gioia Systems will be announcing the launch date for Real Deal Poker in next months Newsletter.

We will guarantee a "Fair Game" and the "highest levels of Customer Service" to poker players and fans all around the world. Just to whip up the frenzy a little more, Real Deal Poker put on the record, their mission over the coming years; Real Deal Poker will launch with one aim, to provide an appealing poker experience to its audience, members and players. Real Deal Poker will provide the most comprehensive levels of accountability and game fairness in the industry.

Real Deal Poker will stand by this mission in the only true way, it will put it's money where it's mouth is to ensure player confidence. All of our decks and hands can be audited independently, allowing us to be accountable for each hand you play and ensuring a "fair game." We encourage your comments and suggestions - be part of something special!

ON THE LEGALIZATION FRONT

We sent Frank out to California to follow up on all of the internet hype around Intrastate Gaming legalization. Sadly, we must report that as of this date there is no effort or bill or committee meetings regarding this topic. Apparently they have chosen to wait on the U.S. Federal Government efforts.
